Tarique,

What excellent work and cooperation from Ambe Consultancy.

The Ambe Consultancy employee is really efficient! I must admit, I am extremely impressed - great communication, fast responses, professional polite and to the point - and exceptionally high standard of work.

**These are definitely people we want on our side and associated with us in the future
Tarique.**

I will also mention this to procurement and to the Head of Finance as well.

What a great pleasure to work with a company that actually does what it says it will do and more besides.

The recruitment coordinator Arun Kumar Sahu is really a credit to that company and deserves special mention for his positive attitude and excellent work - I think he does a great job and understands what customer service is all about.

I am sure the Ambe Consultancy management will be looking at him closely when it comes to promotions and pay increases.

Rgds
